PROFESSIONAL SUMMARY

Motivated Information Technology graduate with hands-on experience in full-stack web development. Skilled in building practical systems using modern technologies, with a strong foundation in both front-end and back-end development. Eager to contribute technical skills and a collaborative mindset to real-world software projects.

WORK EXPERIENCE

PhilSys Registration Operator & Assistant Intern Philippine Statistics Authority RSSO XII

Jan 2026 – Apr 2026

- Assisted in the registration and biometric data capture of citizens under the Philippine Identification System (PhilSys), ensuring accuracy and data integrity.
- Coordinated with senior staff to manage registration queues and guide applicants through the enrollment process efficiently.
- Maintained organized records and submitted daily accomplishment reports, supporting the agency's documentation standards.

EDUCATION

Bachelor of Science in Information Technology Ramon Magsaysay Memorial Colleges – Marbel, Inc.

Jul 2022 – May 2026

PROJECTS

Online Application for Business Permit System

- Developed a web-based system that streamlines business permit applications, reducing manual processing time for local government offices.
- Built the front end with React and back end with Node.js/Express, integrating a Supabase database for secure data management.
- Implemented user authentication, real-time status tracking, and automated email notifications for applicants.

Automated Event Scoring and Tabulation System

- Designed and developed a system to automate scoring and ranking computations for events, eliminating manual tabulation errors.
- Created an intuitive admin dashboard using React, allowing judges to input scores in real time with instant result generation.
